First, you want to regulate what I, as an adult, can and cannot watch on my subscription television. Now you want to regulate what I can and cannot listen to on my subscription radio? This has gone far enough. You need to allow us to watch and listen to what we want. I do not enjoy the screaming advertisements every few minutes and want my local traffic and weather when I want it. Do not fold again! Do NOT listen to the NAB and bar XM from broadcasting local traffic and weather.
